Our Elders have shared that it is important to acknowledge the land where we gather and the first peoples who traditionally lived here. It shows respect for people, their contributions and their ways of knowing, which are reflected through the stories and songs that have lived on this land for thousands of years. We are making this acknowledgment at the beginning of our gathering today to further demonstrate our commitment to work together as a community in laying the foundation for reconciliation through education.

CBE Digital Decodable Library

Welcome to the CBE

Digital Decodable Library

This resource has been developed to provide access to digital versions of decodable reading materials for CBE teachers and families. These digital offerings support both our understanding of decodable books and provide opportunities for beginning readers to access these reading materials at home and school.
